#### Block 1

Les aspects réglementaires (notamment l'accès aux études) sont expliqués sur le site de la Faculté.

Les études de Médecine à l'Université de Liège sont organisées en fonction de différents niveaux d'acquisition des connaissances et des compétences. L'approche du patient s'effectue tout au long du cursus au travers d'activités obligatoires dynamiques (travaux pratiques, séminaires, stages).

From the first term of Block 1 to the end of the first term of Block 2 of the Masters, the course will address the diagnosis, pathologies and treatments in the form of integrated classes combined with pathology, including the following subjects : pathological anatomy, anaesthesia-reanimation, clinical biology, surgery, plastic surgery, orthopaedic surgery, geriatrics, gastroenterology, gynaecology and obstetrics, medicine, intensive medicine, ambulatory medicine, internal medicine, emergency medicine, nuclear medicine, physical and rehabilitation medicine, neurology, neurosurgery, medical oncology, ophthalmology, ENT, paediatrics, x-ray diagnostics, radiotherapy, rheumatology, urology.

They are completed by compulsory activities, practical work, clinical practice, seminars in clinical and diagnostic reasoning, as well as clinical observation, which provide an overview of the activities in different clinical departments.

**From the second four-month period of Block 2 to the second four-month period of Block 3 of the master's degree,** training is focused on the clinical aspect and the patient as a whole. Students must do a 10-month compulsory placement and six months of optional placements in different fields.

### Block 3

Les aspects réglementaires (notamment l'accès aux études) sont expliqués sur le site de la Faculté.

Les études de Médecine à l'Université de Liège sont organisées en fonction de différents niveaux d'acquisition des connaissances et des compétences. L'approche du patient s'effectue tout au long du cursus au travers d'activités obligatoires dynamiques (travaux pratiques, séminaires, stages).

From the first term of Block 1 to the end of the first term of Block 2 of the Masters, the course will address the diagnosis, pathologies and treatments in the form of integrated classes combined with pathology, including the following subjects : pathological anatomy, anaesthesia-reanimation, clinical biology, surgery, plastic surgery, orthopaedic surgery, geriatrics, gastroenterology, gynaecology and obstetrics, medicine, intensive medicine, ambulatory medicine, internal medicine, emergency medicine, nuclear medicine, physical and rehabilitation medicine, neurology, neurosurgery, medical oncology, ophthalmology, ENT, paediatrics, x-ray diagnostics, radiotherapy, rheumatology, urology.

They are completed by compulsory activities, practical work, clinical practice, seminars in clinical and diagnostic reasoning, as well as clinical observation, which provide an overview of the activities in different clinical departments.

**From the second four-month period of Block 2 to the second four-month period of Block 3 of the master's degree,** training is focused on the clinical aspect and the patient as a whole. Students must do a 10-month compulsory placement and six months of optional placements in different fields.
